- Notes:-**
1. I believe to be the oldest Freighter in existence. Its chassis number is 53119 making it the 119th SD Freighter produced. It has done a very small mileage as the tiny wheels were unsuited to the Australian dirt roads.
 2. This special Freighter for W.H. Allen manufacturers of marine and aero engines could carry 10 tons. Returned to S&D after a 50 year working life. Now in a barn.
 3. Started as a demonstrator in June 1927, sold in 1929 to Folkestone, used by them until 1946, then used as a sewer maintenance vehicle until 1966. Restored to 1922 condition by SD apprentices in 1968. Became property of Dennis when S&D closed. With Shuttleworth collection, then Coventry Museum of Motor Transport until Malcolm Bates became custodian in the summer of 2003. Now stored at McCreath Taylor's premises Lisburn, Northern Ireland.
 4. This Freighter carries the livery of McReath Taylor. Purchased by Peter Johnston from the An Dún Transport and Heritage Museum near Athlone in October 2010. Fully restored by James McAleer, Fintona, Co. Tyrone and given to Peter's son, David Johnston.
 5. These two Freighters were offered for sale by auction in August 2012 at Cheltenham after being used on a farm in the area.
 6. Purchased by Mark Kennedy, Bangor, Northern Ireland from Ralph Crowe in 2011. Passed to Aled & Matthew Rees 2017
 7. Appeared in film of "Dad's Army". Photo on cover of Barrie Woods' book. Engine required attention as at summer 2003. Placed on display at the Bressingham Museum's Dad's Army display in 2015.
 8. Was owned by Mr. M. Bicknell of Reading and appeared at SD Enthusiasts' Club events in 2004 & 2005. Entered for 2003 London to Brighton run, but did not arrive at Brighton. Transferred to unknown new owner in 2009 along with 2 Freighters & 'W' 701 DUR
 9. Was owned by Mr. M. Bicknell of Reading transferred to unknown new owner in 2009.
 10. Ex-Truro fitted with replica Tramocar body by the Amberley Museum.
 11. Seen in 2003 in totally un-restored state at East Anglia Transport Museum. Transferred to new owner Russell Cook in 2009.
 12. Was with Cleanaway at Durham. Now with Veolia and said to be being restored.
 13. Was owned by Mr. M. Bicknell of Reading transferred to unknown new owner in 2009
 14. Preserved by Stockton Council was at Beamish Museum present whereabouts unknown.
 15. At Cardiff Museum photographed by Barrie Woods 02.09.2014. It carries the Chassis/frame number N70146, and Engine number EU20250. First registered on 21st December 1947 this must be among the last Freighters manufactured.

2. One of a batch of ten delivered for airport fire fighting.

3. As above. Transferred into private hands a mill fire fighting appliance. Notified in 2007.

4. ZL 7761 In very bad condition – stored off site.

5. RVO 157 Originally a gulley emptier.

6. 78 DNK Owned by Ted Hoole, Sheffield, since 1977 until Spring 2010 as a flat bed lorry. Purchased by Michael Cooper who fitted Derby type body. Sold on in 2015

7. 701 DUR Was owned by Michael Bicknell, Reading. Sold on to unknown purchaser in 2009.

8. 2217 IJ The vehicle was acquired by Peter Johnston in May 2011 having been dry stored in a hay barn for about 20 years. The cab was completely rotten and the fore & aft tipping body and subframe non-existent. The vehicle was restored by James McAleer of Fintona and completed by the autumn of 2013. The vehicle is powered by a Shelvoke & Drewry petrol engine.
